

Materials Handling & Process

The UGM MHP Division provides complete minerals processing and materials handling solutions, from receipt of raw product, to mineral beneficiation, through to train load-out infrastructure.

Our goal is to offer an all encompassing engineering project service which provides for maximum control over core process, production and maintenance activities.

UGM MHP can provide an extensive range of materials handling services, including:

- ▶ **Process and non-process engineering investigations**
- ▶ **Conceptual development**
- ▶ **Process costing**
- ▶ **Detailed engineering design**
- ▶ **Specification development**
- ▶ **Installation and commissioning for capital works**
- ▶ **Plant modifications**
- ▶ **Plant upgrades**

For assistance in all aspects of Materials Handling & Process please contact:
