

# Rail

The 2008 Rail Safety Act and Regulations have introduced additional obligations for the management of Rail Infrastructure and Rail Construction projects.

UGM Rail - a division of the UGM Group based in NSW and QLD - has key personnel with the expertise and experience to manage complex safety and regulatory issues including:

- ▶ Rail stakeholder consultation / interface co-ordination
- ▶ Railway compliance auditing
- ▶ Objective based rail risk identification and management
- ▶ Rail safety management
- ▶ Rail construction project safety management
- ▶ Technical advice on rail safety issues
- ▶ Incident management and investigation

*For assistance in managing the safety aspects of rail operations, private sidings and rail construction activities, please contact:*
