Brooks Bros. Engineering & Steel has been providing the Hunter Valley with steels sales and engineering for over 30 years.

BrooksBros. Engineering & Steel has been providing the Hunter Valley with steel sales and engineering services for over 30 years. The Brooks Bros. workshop is based in Scone and boasts one of the largest steel yards in the Hunter Valley, carrying a wide range of pipe, RHS and plate as well as a shop-front offering a diverse range of hand tools, fixings, welding consumables and

power tools. Our services focus on steel sales, fabrication (sml, med & lg), mining fabrication, building materials, roofing, reinforcement, steel flooring. Currently we employ over 25 staff which include fully qualified tradesmen, as well as apprentices at various stages of their training. Some of our clients include Dartbrook Coal, Anglo Coal, UGM Engineers, and many others.
